Savannah Chief Bars Reporters.

Savannah, Ga., March 26.—Barred from the Savannah police headquarters by an order of the chief of police, Captain W. G. Austin, the reporters of the Morning News are up against the proposition of getting police news as best they may. This "best" is much better than it was a few days ago, when Captain Austin was endeavoring to exercise a sort of censorship over all of the news that was printed concerning in any way his department.

Soon after his induction into office Captain Austin adopted an attitude toward the newspapers at variance with that of his predecessors. He demanded that the reporters stop using their discretion in writing up stories connected with his department. Consultation with the editors resulted, and a disposition was shown to meet Captain Austin half way.

Several days ago there came a rupture with the Morning News because of a story of a policeman having stopped a funeral to demand that the driver of the hearse show his license tag. This information came from a police sergeant. The police chief and the members of the police committee of council were indignant.

Chief Austin issued an order that reporters of the Morning News were not even to be permitted within head quarters. The Morning News accepted the challenge and the censorship is off.

The result is that more police news, shorn of dictation of any official as to its character and the

style of its writing, is presented each day than might have been found in a week while the censorship was on.

The police authorities, galled by their failure to shut the paper off from its source of police news information, yesterday came to the front with an order directed to the policeman, informing them that the giving of information to any newspaper reporters would be considered sufficient grounds for dismissal from the force.

The situation is interesting, especially to newspaper men and police departments everywhere.

Decatur County Votes Dry by 550 Majority.

Bainbridge, Ga., March 26.—Decatur goes dry by about 550 majority.

One of the greatest surprises of the fight was the vote of Bainbridge, the "wet" men getting a majority of only six votes here. This place was conceded to the anti by majorities ranging from 200 to 250, as it was known that they expected to vote all the negroes on their side here if possible. Several negroes voted the dry ticket.

While one or two precincts in the county have not been heard from it will not change the result, but rather increase the majority.

While the campaign was waged with unceasing activity and the leaders on both sides contested every inch of the ground there was little ill-feeling.

At 4:30 o'clock this morning numbers of prohibitionists, accompanied by their mothers, wives and sisters, met at the Presbyterian church, and at 5 o'clock marched to the court house, where, in a lobby facing the ballot box, a sunrise prayermeeting was conducted by Mr. Charles N. Crittenton, the merchant evangelist.

When the polls opened the prohibitionists captured them to the discomfiture of the anti-prohibitionists.

At 8 o'clock one hundred children, led by Mr. Crittenton and the local ministry, marched all over the city bearing a banner on which was inscribed: "Vote for Us Today. For Our Sakes Vote Out the Saloons." It was a most

impressive sight and they were cheered along the line of march.

When a line of negroes were being voted by some of the saloon men Judge Sheffield, of Arlington, who was standing nearby, cried out: "Shame, sham"; to try to defeat the will of the county by such methods.

The saloon men, by agreement with themselves, have been closed a week today. Mayor Willis says that Saturday there was not a single arrest. Such a thing has never happened in this city before. Gadsden county, Florida, went dry today by over 400 majority.

Crawford-Anderson.

The News is in receipt of an invitation to the wedding of Miss Blanche Crawford to Mr. William Dean Anderson, of Savannah, the wedding to take place at the Christian church in Savannah on Wednesday evening, April 10th, at seven o'clock.

Mr. Anderson is a son of Mr. E. M. Anderson, of this place, and has many friends here who wish for him much success through life. He is an old Bulloch county boy, but now holds a responsible position with one of the leading business houses in Savannah.

The News will join his many friends in Statesboro and elsewhere in extending congratulations to the happy couple.

Williams-Langford.

The most beautiful wedding that was ever witnessed here was that of Mr. Alvin Langford and Miss Annie Laura Williams which occurred at the home of Mr. and Mrs. N. S. Williams last Wednesday afternoon. Promptly at 7 o'clock, with slow and solemn tread, the bridal party entered the parlor accompanied by the strains of Mendelssohn's wedding march, rendered by Mrs. Dr. B. D. Brawell. The ceremony was performed by Elder J. W. Withington in a very impressive manner.

The bride was attired in Cream Nunsvelling trimmed in satin ribbon. The waiters were Mr. N. H. Collins, with Miss Annie Mae Adams; Mr. Marvin Langford, with Miss Daisy Sikes. Mr. Langford is a very energetic and industrious young man, being a native of Barnsville, Ga., but at present he is a member of Collins Drug Co. a very prosperous business. Miss Williams is a daughter of the late Dr. V. Williams of Bulloch county and is a most modest and very attractive. She numbers her friends by her acquaintances. The presents were many and very pretty.

They left immediately after the ceremony to spend a few days with Mr. Langford's relatives. The writer wishes them a long life of joy, happiness and usefulness.

Announcement.

Commencing Friday the 22nd inst. our millinery department will be open to the public, and we cordially invite our patrons and the ladies of Statesboro and vicinity to inspect our elegant stock of goods, as much care has been exercised by Miss Tipton, assisted by Miss Kessler of Baltimore in the selection of goods for this department, embracing the most up-to-date fashions, both French and American.

Square Meal Ends

This Woman's Life.

Savannah, Ga., March 27.—Two persons were found dead in bed yesterday morning at the same hour, having died alone some time during the previous night. They were Katie Cuthbert, a negro woman who lived at 232 York lane, west, and Sam Bell, colored, of 406 1/2 Congress lane, east.

The death of the former is supposed to have been the direct result of her effort to appease a hunger of two days' standing by devouring far more than the normal amount of food required for a square meal. Coroner Stanley was called, and after an investigation stated that the woman's death was caused by an attack of acute indigestion.

It was stated that for two days she had been without food and late Monday night broke her fast. "She ate everything in sight," was one statement made to Coroner Stanley. At 10 o'clock yesterday morning Anna Bowen, a friend of the dead woman, noticed that she had failed to appear at her door during the morning and investigated, finding the woman lying dead in her bed.

I take this method of thanking my old friends and customers for their liberal patronage in the past and ask a continuance of same, as called, and after an investigation I have a well selected line of fancy millinery, ribbons, baby caps, etc. caused by an attack of acute indigestion.

What Our Agricultural

Schools Should Be.

We reproduce in this issue a letter from Dr. W. A. Henry, of the Wisconsin agricultural college at Madison, Wis., addressed to Governor Terrell. The letter is pointed and, in our opinion, one of the strongest pleas for the guidance and usefulness of these schools that we have seen. The Wisconsin agricultural college is conceded to be the best one in the United States. Its usefulness and power has brought the state which fosters and supports it to the very front ranks of the great North-western states. It is an acknowledged fact that the farmers of the state of Wisconsin are the most intelligent and progressive of any of the group of states making up the great North-west, and this, in itself, makes the letter of Prof. Henry worthy of the consideration of our own people who are just now branching out along the same line blazed out by our North-western brethren.

Read the letter, and you will find profit by having done so.

The Railroads' Treat

A dispatch from Atlanta states that the big railroad corporations of Georgia are going to resist the reduction of the passenger rate in this state to two cents per mile.

It is expected that at the next session of the legislature a bill will come up looking to this end; at any rate it does to come up, it being made an issue during the past campaign. Governor-elect Hoke Smith stood for it on every platform in this state and the people elected him to office by the largest majority ever accorded a man for that high place. It is our opinion that he got the support of a large majority of the railroad vote throughout the state, along with the balance of the boys.

Now, gentlemen, you voted for this reduction, now let's carry out the platform. The Statesboro News opposed the election of Mr. Smith, but the people thought otherwise from what we did. They said what they wanted, now let's have it. By all means, gentlemen, carry out the platform.

It is stated that the railroads will take off all reduced rates if this is done.

Why, bless your soul, that is just what they ought to do. Now we will suggest that they start in by taking off their reduced Sunday excursion rates. This has become an open, burning, scorching curse on the state of Georgia, and if the railroads don't take them off themselves the railroad commissioners ought to do it for them. The practice of hauling a drunken mob into town on Sunday to tank up on mean whiskey and return home to make things hideous for everything in the community is one that should be stopped. When Sunday comes a man ought to either find his way to some good church or stay at home with Susan and the children. It is much more becoming of him than to be stalking around Tybee or Savannah hunting a side door to get a bottle of mean whiskey.

The two-cent rate is bound to come, whether the excursion rates are canceled or not. The railroads can do as they please with the Sunday excursion—that is as long as an outraged people will put up with it—but it is our honest opinion that the platform on which Governor Hoke Smith was elected will be carried out to the letter, and it should be, too.

Timely Letter On Our Agricultural School

Dr. W. A. Henry, dean of the Wisconsin College of Agriculture, an institute of more than national fame, has written Governor Terrell an interesting and timely letter upon Georgia's new Agricultural schools. Dean Henry is one of the foremost and best known professors of agriculture in the United States and what he says upon this subject must, of necessity, have great weight.

His letter follows:
Madison, Wis., Mar. 20, 1907.
Dear Sir: Some time since I received a copy of the report of J. S. Stewart, professor of secondary education, one "The Tentative Curriculum of the District Agricultural High School," and the resolution offered by yourself as governor, adopted by the board of trustees of the University of Georgia, January 10, 1907.

I have examined this report with great care and extreme pleasure. I wish to go on record as saying that this movement of the state of Georgia is one of the most interesting important and far-reaching measures for the advancement and improvement of the people that has ever been undertaken by any commonwealth. A number of states are beginning, in a small way, efforts towards secondary instruction in agriculture. Your state is taking a tremendous stride all at once, in the right direction, in the right manner, and in the spirit. If your people will but continue this movement as they have so wisely begun it, Georgia will soon stand the one bright and shining light, proving a guiding star to other states in leading them in the solution of the great problem of how to wisely and properly educate the common people.

It has taken a long time for educators to bring their minds into proper frame, relative to the true functions of education. Too long have these men held that education was something for the sacred few, that educated men were very properly in a class by themselves—made of a little different clay, as it were, and entitled, in some way, to reverence any special deference from the common mass of ordinary humanity. Now we are beginning to learn that it is but ordinary wisdom and plain common sense statecraft to pay attention to the education of the common people, as they have been called, but really the bone and sinew of the land, the foundation of everything good in our civilization. We are coming to hold that no longer is education in anywise a something for the sacred few, but rather that it is God's best blessing to man. We are further coming to see that education is the best which refers to the everyday thing all about us. These are the most beautiful, the most interesting, and, best of all the most helpful, when we come to know them and know their aright.

I am particularly pleased with the resolutions offered by yourself, relative to the course of study. It is a Masterful piece of practical wisdom if your people will but hold to this course of action, so wisely formulated and prudently adopted in the very beginning of your efforts it will bring about a revolution in your state, greater than even the most hopeful and far-sighted among you can now foresee.

I urge you to use all your powers to keep your agricultural teachers in these several schools down, down, close to the people they are seeking to serve. There will be at once spring up a tendency to make these institutions of a "higher grade." Educators will begin to talk about the intellectual side of life and all that. Teachers drift away from the plain, everyday affairs of our existence to indefinite vagaries, just as blinded moths are drawn to the light. They often come to forget and even despise, the common mass of humanity, out of which they themselves have sprung. Keep these schools, I beg you primarily agricultural, balancing the work

up very properly, with instruction in the solid, substantial branches of learning, such as mathematics, history, etc. Teach the young men the dignity and value of manual labor and real knowledge and practice of the common affairs of life. Teach the young men, especially, the art of agricultural, and the young women the art of home building. Let the foundation on which you build be common sense, and the superstructure learning and doing those things that relate to the affairs of our everyday life in the home and on the farm.

It may seem presumptuous on my part to write you this letter, but my heart is filled with importance of what you are doing, and I recall with the keenest pleasure having met your people in your university chapel at Athens, some years since, and there talked these very matters over with them. I further recall that glorious visit of yourself and a large delegation of Georgia's choicest citizens, made to this institution, the University of Wisconsin, some two or three years since. Thus we are bound together by special ties and support. My twenty-seven years of service in Wisconsin in efforts to build up a similar plan of instruction, and to give it a form and substance, have brought forth results of immeasurable value. All over this state my former students are now scattered, living on their farms and improving the agriculture of the regions about them in a most marked manner. Seeing this fruitage so plentifully garnered has warmed my heart and given me encouragement beyond anything I had dared hope for in the beginning, as I looked forward to the future. Having witnessed this result of my own efforts, how can I do otherwise, when my heart warms up towards your people, than to send you greetings and a Godspeed in the splendid plans you are laying for the great state of Georgia! The future is pregnant with good things for your people. All honor to the great state of Georgia. Every state in the union should make its best bow to your commonwealth.

With highest regards and best wishes, I am,
Yours for better agriculture
W. A. HENRY, Dean.
Joseph M. Terrell, Governor.
Atlanta, Georgia.

Always Keep Chamberlain's

Cough Remedy in His House

"We would not be without Chamberlain's Cough Remedy. It is kept on hand continually in our homes," says W. W. Kearney, editor of the Independent. Lowry City, Mo. That is just what every family should do. When kept at hand ready for instant use, a cold may be checked at the outset and cured in much less time than after it has become settled in the system. This remedy is also without a peer for croup in children, and will prevent the attack when given as soon as the child becomes hoarse, or even after the croupy cough appears, as it can only be done when the remedy is kept at hand. For sale by all Druggists.

With the new agricultural college going up where boys and girls of the county can get a free and practical education, with the building of good roads over the county, and the building of the new railroad, Bulloch will be in the swim sure enough.

Eczema, Tetter, Salt Rheum, Itch Ring Worm, Herpes, Barbers Itch.

All of these diseases are attended by intense itching, which is almost instantly relieved by applying Chamberlain's Salve and by its continued use a permanent cure may be effected. It has, in fact, cured many cases that had resisted all other treatment. Price 25 cents per box. For sale by all Druggists.

The man behind the plow is again the citizen, to whom the world is looking for its meat and bread.
Kodol digests what you eat and quickly overcomes indigestion, which is a forerunner of Dyspepsia. It is made in strict conformity to the National Pure Food and Drugs Law and is sold on a guarantee relief plan. Sold by W. H. Ellis.

The Spy System

Revived Again

Savannah is again having a taste of the old spy system put in vogue by the McDonald administration of several years ago. In fact the system has returned in more morbid form than it was during those years.

While the open saloons, running on the Lord's Day, is a menace to public morals as it is, is bad enough, we believe that some of the tactics being employed in Savannah at this time by Chief police Austin are much worse than the open Sunday saloon. The instance of the case where he and a band of armed officers raiding a man's premises and demanding keys to go through his place of business on a search for evidence is beyond the duty of an officer in the enforcement of the laws of a city.

It appears that in the case of Haars on last Sunday his place of business was closed as required by law, but the officers raided it anyway. Now, on this line, they would have a right to go through any man's premises to see whether he was obeying the law or not. It was found that after everything in the fellow's place was turned topsy turvy, that he was not guilty at all was observing the law as other law-abiding citizens were on that day.

In another column will be found a communication from one of our citizens registering a kick against the workings of our new road law. Our friend seems to be disturbed over the fact that he is called upon to contribute three dollars per year or to put in ten days on the public roads. He also complains that he is not allowed but thirty cents a day, while this same money is taken and paid to a negro to work at \$1.25 per day.

Now, we would suggest as a remedy that our friend pay his three dollars in and then apply for three days' work at \$1.25 per day, and we guarantee that he gets a job at that price.
Our road system is the best the county has ever had, and while no doubt there may be instances where it is not carried out as it should be, it is a notorious fact that Bulloch county is fast getting the best set of public roads of any county in the state. Our steam road machine cost money, it is true, but it is making turnpikes out of the old ruts that have been an eyesore to our people for all the ages past.

A farmer is the last man who ought to raise a kick against good roads. It is his team that bears the brunt of bad roads. Then, what is three dollars a year, as compared with the roads we are getting? Many a man throws away three dollars on a jug of booze or something else that does him about as little good, and then opposes good roads because they cost him three dollars. Now, this is not thrown at the gentleman who wrote the letter printed herein, but at every man who opposes good roads. Our friend may never have expended a nickel for booze in his life, for all we know, but if he has not he is rather an exception to the rule in Bulloch.

Let us have good roads and not kick on a paltry sum like three dollars. There is nothing that goes to improve a community any more than a fine graded public highway.

Henry Johnson
Brought Back.

Sheriff Kendrick brought in Henry Johnson from Savannah yesterday. Johnson was what you might style a "business nigger" around town, ran a fish joint and succeeded in pulling a lot of folks in a small way and settled up by taking leg bail. He was located in Savannah. When approached he proceeded to flee the wrack to come, and called for brick blocks to fall on him to obscure him from the sight of the high sheriff, but Sheriff Kendrick's handy six shooter brought him around all right and had the desired effect of taming the gentleman.

He was wanted by several warrants for cheating and swindling.

NOTE LOST.

A KILLING SCRAPE

NEAR ADABELLE.

Two Negroes Engage in a Friendly Play, Which Ends in Tragedy.

On yesterday morning the marshal of Hagan brought in John Davis, a negro, who killed Bob Williams, another negro, in the camp of the Register & Glenville railway crowd near Adabelle.

It seems that the two negroes began to play with each other, when Williams struck Davis on the shoulder with a small piece of iron. Davis then drew his pistol, which he snapped at Williams, who ran around a car, where Davis followed and shot him in the back, wound proving fatal in a short time.

Davis claims that Williams was a bad negro, and that he thought the latter had run around the car to get his pistol with which to shoot him, and he took time for the forelock and blew his light out first.

Our Road System.

In another column will be found a communication from one of our citizens registering a kick against the workings of our new road law. Our friend seems to be disturbed over the fact that he is called upon to contribute three dollars per year or to put in ten days on the public roads. He also complains that he is not allowed but thirty cents a day, while this same money is taken and paid to a negro to work at \$1.25 per day.

Now, we would suggest as a remedy that our friend pay his three dollars in and then apply for three days' work at \$1.25 per day, and we guarantee that he gets a job at that price.
Our road system is the best the county has ever had, and while no doubt there may be instances where it is not carried out as it should be, it is a notorious fact that Bulloch county is fast getting the best set of public roads of any county in the state. Our steam road machine cost money, it is true, but it is making turnpikes out of the old ruts that have been an eyesore to our people for all the ages past.

A farmer is the last man who ought to raise a kick against good roads. It is his team that bears the brunt of bad roads. Then, what is three dollars a year, as compared with the roads we are getting? Many a man throws away three dollars on a jug of booze or something else that does him about as little good, and then opposes good roads because they cost him three dollars. Now, this is not thrown at the gentleman who wrote the letter printed herein, but at every man who opposes good roads. Our friend may never have expended a nickel for booze in his life, for all we know, but if he has not he is rather an exception to the rule in Bulloch.

Let us have good roads and not kick on a paltry sum like three dollars. There is nothing that goes to improve a community any more than a fine graded public highway.

Henry Johnson
Brought Back.

Sheriff Kendrick brought in Henry Johnson from Savannah yesterday. Johnson was what you might style a "business nigger" around town, ran a fish joint and succeeded in pulling a lot of folks in a small way and settled up by taking leg bail. He was located in Savannah. When approached he proceeded to flee the wrack to come, and called for brick blocks to fall on him to obscure him from the sight of the high sheriff, but Sheriff Kendrick's handy six shooter brought him around all right and had the desired effect of taming the gentleman.

He was wanted by several warrants for cheating and swindling.

Petition for charter.
Georgia, Bulloch County.
To the Superior Court of said County: The petition of J. A. Brannen and others, respectfully shows:

1. That they desire for themselves, their associates, successors and assigns to be incorporated under the name and style of "Georgia Realty Company," for a period of twenty years, with the privilege of renewal at the expiration of that time.

2. The capital stock of said corporation is to be one thousand dollars, divided into shares of one hundred dollars each, all of which have been actually paid in. Petitioners ask the privilege of increasing said capital stock from time to time, not to exceed in the aggregate two hundred thousand dollars.

3. The principal office and place of business of said company will be in the city of Statesboro, said county and state, with branches and places of business as such other places in said state as they shall see proper.

4. The object of the proposed corporation is pecuniary gain to the stockholders, and the business they propose to carry on is buying and selling lands in said county and elsewhere in said state; owning, renting, leasing, improving, developing, and otherwise procuring, controlling and disposing of lands in said county or elsewhere in Georgia, with the right and power, making all necessary and proper contracts with respect to such lands in the same manner and to the same extent that same may be made by an individual; and to do all necessary, proper and expedient acts connected with or incident to said lines of business.

5. Wherefore, petitioners pray to be made a body corporate under said name and style, entitled to the rights, privileges and powers and immunities, and subject to the liabilities fixed by law.

This 20th day of March, 1907.
BRANNEN & COMPANY,
Attorneys for petitioners.

Georgia, Bulloch County.

I hereby certify that the foregoing is a true copy of the original petition for incorporation of "Georgia Realty Company," this day filed in my office.
